

Manila Protection Inc. is the premier supplier and manufacturer of high quality armoured vehicles in the Philippines with over 35 years' experience in the international vehicle armoring market.

Manila Protection has employed a highly skilled craftsmen and engineers, offering our customers top quality European armoring, combined with a high level of safety and security.

Manila Protection Inc. continually strives to deliver high quality armoured vehicles that will meet our customers' personal requirements for security and safety and at affordable prices.

Protect the things you value most with Manila Protection Inc. for you and your family's peace of mind.

Tested and Proven Armour Technology

The 360° protection of a Manila Protection vehicle is based on the "cocoon principle". Just like a cocoon, we encase the passengers in a protective shield to prevent or minimize damage inflicted by an attack.

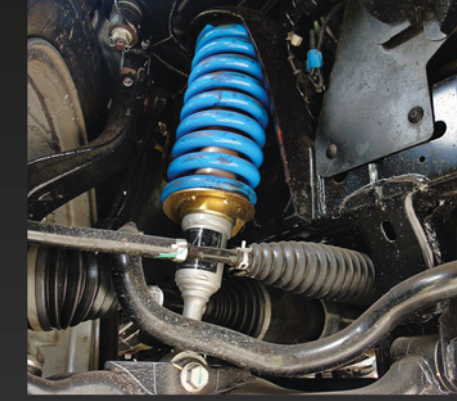

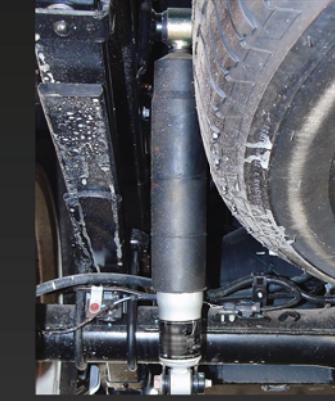

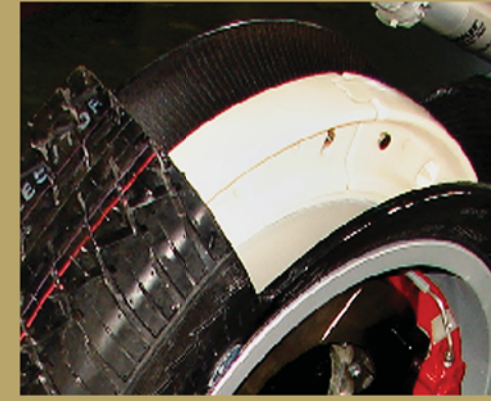

European Armour Technology
